

HIV REAGENT PROGRAM

MEDICAL RESEARCH COUNCIL / UNIVERSITY OF CAPE TOWN ADDENDUM

Addendum to registration agreement for the NIH HIV Reagent Program

Applicable to: **Du422 Reagents**

Catalog Number: ARP-11308 and ARP-11326

These materials are released to the NIH HIV Reagent Program Repository under Release Category C.

Recipients may use these materials for research purposes only.

In the event that a Recipient wishes to use the isolate named above in a product offered for sale, in a commercial manufacturing process (including quality control procedures), as part of a fee-for-service activity, or in a sponsored research project where the sponsor is a commercial entity, Recipient agrees to notify the University of Cape Town prior to engaging in such use, in order to enter into an agreement with the University of Cape Town and the South African Medical Research Council which will set out the terms for such use. Such terms will include a provision that, in the event that a commercial product is developed, Recipient will use all reasonable endeavors to ensure that such product is made available in developing countries at an affordable cost.
